**MEMORANDUM FOR SEE DISTRIBUTION**

**THRU: DESC-RRF**  
Building 1621-K  
2261 Hughes Ave, STE 128  
Lackland AFB TX 78236-9828

**SUBJECT: Standard Prices for Missile Fuels Management Category Items**

**ATTENTION: Command Fuels Office, Base Fuels Management Office, Non-DoD Customers**

1. This publication provides the official standard prices for Missile Fuel products managed under the Defense Working Capital Fund (DWCF) for fiscal year 2003 and fiscal year 2004. The standard prices published in this letter are intended to remain in effect throughout the fiscal year.
2. The standard price of the product includes all charges you will be assessed unless you have requested a special service, such as airlift and/or special containers. Should a special service be requested, we will identify the cost to you and, if you concur, bill you accordingly. We have included a CD of our Missile Fuels Reference Guide that provides a listing of the points of contact phone numbers, product lead times and a list of services we can provide.
3. Since we are getting close to the end of the fiscal year, we would like to take this opportunity to remind all of our customers to review their funding requirements. Customers with funding requirements that expire on 30 Sep 02 will need to submit a memorandum to DESC-RRF, referencing the expired "Customer Identification Codes" (CICs) and a statement that "funds will be provided as soon as available". A funding document for the next year may also be submitted as a "planning document". The "planning document" must be certified as soon as the funds are available. Notification of continuing requirements at Kennedy Space Center and Cape Canaveral is especially important. These documents will ensure uninterrupted deliveries to our customers.
4. Thank you in advance for your support to help us make our mission successful. Support to our customers with the highest quality, priority service and lowest price is our top priority and utmost concern.

  
CAROL O'LEARY

Director  
Directorate of Resources Management

SUBJECT: Standard Prices for Missile Fuels Management Category Items

1. This publication provides the official standard price for Liquid Nitrogen Dewars managed under the Defense Working Capital Fund (DWCF) for fiscal year 2003 and fiscal year 2004. Since your facility receives a specialized missile fuels item, this memo is providing the pricing information under separate cover. The standard price for Liquid Nitrogen Dewars is as follows:

Nitrogen, Type II, Grade B, Spec MIL-PRF-27401, PC-64, Unit of Issue TN, Unit Pack, Dewars in Liters, NSN 9135-00-965-2526, NASA Ames Research Center Only	FY03 \$400.00 FY04 \$380.00
--	--------------------------------

2. The standard price of the product includes all charges you will be assessed to include your requirement for specialized containers. Should any additional special services be requested, we will identify the cost to you and, if you concur, bill you accordingly.

3. It is our goal to assist you in meeting your program requirements. If you have any questions, please contact Kathy Menchaca at (210) 925-8893.
